

The Department of Urology at Dalhousie University and Nova Scotia Health is seeking a full-time academic urologist to join the department of 14 and as a member of the 6 surgeon Multiorgan Transplant Program (MOTP). The successful candidate will participate in an interdisciplinary MOTP program serving all four Atlantic Canadian provinces, with an average volume of 100 kidney transplants per year. They will work closely with urologists, hepatobiliary surgeons, and nephrologists, combining clinical, research, and educational activities to meet the needs of the Department and the MOTP Program. They will join a dynamic group of 11 adult and three pediatric urologists. This position will also hold a Continuing Appointment with Annual Academic Career Development at the appropriate academic rank within the Faculty of Medicine, Dalhousie University. Compensation is primarily through a fee for service model, with additional remuneration for academic activities. The urologist will participate in city-wide urology call schedule, and a separate kidney transplant rota.

The catchment area for the department is approximately one million people, and the city of Halifax itself has a population of approximately 500K. This beautiful historic city sits directly on the Atlantic Ocean and acts as one of the busiest marine ports in North America. The hospital and university are situated in the same location, directly downtown, surrounded by friendly neighbourhoods and many excellent schools. A new hospital/health sciences centre is being built over the next 5 years

Candidates must hold an MD plus FRCSC qualification in Urology, or equivalent, and must have completed an accredited fellowship in Renal Transplantation. Competence in open and laparoscopic renal surgery, including living donor nephrectomy, is required. Commitment to building an academic career is expected. Candidates must demonstrate an interest and commitment to medical education, clinical research, and be expected to assume administrative positions of leadership within the Department and MOTP, including the renal transplant fellowship program director.

Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous persons (especially Mi'kmaq), persons with a disability, racialized persons, including persons of Black/African descent (especially African Nova Scotians), women, persons of a minority sexual orientation and/or gender identity, and all candidates who would contribute to the diversity of our community. For more information, please visit [www.dal.ca/hiringfordiversity](http://www.dal.ca/hiringfordiversity). All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority

Dalhousie's vaccine mandate has been suspended at this time, and employees no longer need to provide proof of full vaccination. However, health and safety risks to our community will continue to be monitored and a vaccine mandate may be reinstated if necessary.

Anticipated start date for this position is September 1, 2022. Applicants must submit a letter of application including a statement of academic interests and a curriculum vitae.

All applications must be submitted by clicking the Apply tab on this site.
