

**Humber River Hospital – Minimally Invasive and Endourology “Enhanced” Community Urology Fellowship – Toronto**

Humber River Hospital in Toronto, is pleased to offer, **starting July 1, 2023**, a one-year fellowship in ‘Enhanced Community Urology’.

The fellowship is fully certified by the University of Toronto and is open to any Canadian applicant who has passed his/her written examination and is able to obtain a license in Ontario.

“Enhanced”, because Humber River (fully affiliated with University of Toronto, Queen's University and McMaster University) is in the unique position to have 10 urologists under one roof who perform the full range of Urology Surgery including: Full endo urology with 'self access', Green Light Laser, Blue Light Laser with Cysview for bladder cancer, White Light Laser, female urology, and laparoscopic and robotic urologic surgery.

For more information, please email your CV and/or call:
