Urologist Opportunity – Join our Growing Organization

Experience a place where people come first

As a healthcare leader serving a population of more than half a million people, Mackenzie Health offers a dynamic, supportive environment of respect and continuous learning. A place where all staff are valued, can engage in meaningful work as part of a friendly, diverse team and use best-in-class technology to provide exceptional patient care. Experience a place where people come first. Experience Mackenzie Health – your ultimate career destination.

As we recently opened Cortellucci Vaughan Hospital, and continue to operate Mackenzie Richmond Hill Hospital, we have many opportunities for passionate professionals like you, who share our commitment to quality, timely patient-centred care. Ultimately, this is where you want to be.

Position Overview

Mackenzie Health is currently recruiting an Associate Active Urologist with subspecialty expertise in minimally invasive urologic surgery and male infertility/andrology. The candidate selected would have access to available resources within the Department of Surgery in the Division of Urology for emergency consultations and elective surgery. The Urologist would be expected to provide an equal share of on-call coverage within the Division and would operate a Urology Clinic within the hospital catchment.

The physician must complete a full credentialing application and must have their appointment approved by the Medical Advisory Committee and Board of Directors. The appointment will not be official until the approval of the Board of Directors has been obtained. The physician will be credentialed according to the terms specified in the Hospital By-laws.

Responsibilities

As the Urologist, the Physician will be responsible for the following:

- Examine, diagnose, and treat patients with acute Urologic issues (both inpatients and outpatients).
- Manage patients through the continuum of hospital care.
- Order treatments, tests, and consults with specialty physicians and primary care physicians where necessary.
- Provide outpatient care for Urologic patients
- Provide consultation on patients already admitted.
- Perform elective surgery utilizing existing resources within Division of Urology.
- Perform duties and responsibilities as agreed upon by the Division of Urology

EXPERIENCE A PLACE WHERE
PEOPLE COME FIRST
