Practice Urology on Beautiful Cape Breton Island!

The Department of Surgery, Division of Urology at Cape Breton Regional Hospital (CBRH) is actively seeking a full-time Urologist to join our dynamic team. The successful candidate will collaborate with two other Urologists, contributing to the provision of comprehensive urological services for the Cape Breton Regional Municipality and neighboring communities.

On the doorstep of the breathtaking Cape Breton Highlands National Park, the Cape Breton Regional Municipality stands as the second-largest municipality in Nova Scotia. With a population of 115,000, Cape Breton Island is renowned for its vibrant Celtic culture and picturesque landscapes.

About the Cape Breton Regional Hospital

CBRH has 162 acute care beds, 36 emergency beds, 23 intermediate and critical care beds, 40 maternal child beds, 52 mental health and addiction beds, and nine palliative care beds. The hospital provides a range of primary and secondary services through in-patient, outpatient, and community-based programs. CBRH is the second largest acute care facility in Nova Scotia that serves more than 200,000 patients a year. It is part of a four-hospital complex that also includes Glace Bay, New Waterford Consolidated, and Northside General Hospitals.
