

## Advancing Patient Care Through Science & Service

At Tolmar®, we serve patients around the world  
by developing innovative, specialty  
pharmaceutical products.

### **Committed to scientific advancement. Passionate about patient care.**

...

At Tolmar, **science drives everything we do.** Through a relentless focus on technology, science, partnership and excellence, we seek to advance patient care and deliver value through innovative therapies and services.

Through our focus on the therapeutic areas of urology, oncology and dermatology, Tolmar is committed to advancing patient care around the world.

Our flagship product, ELIGARD® (leuprolide acetate) for injectable suspension is delivered via the unique Atrigel® Delivery System — designed to provide a continuous release of medicine over an extended period of time.

...
