

## Dr. Kevin Carlson, MD FRCSC DABU

Dr. Carlson graduated from medical school at the University of British Columbia. He completed his urology residency at Dalhousie University in Halifax, Nova Scotia, and fellowship training in pelvic reconstructive surgery, voiding dysfunction, neuro-urology, and urodynamics at New York University Medical Center in New York City. He is former Chief of the Section of Urology and is a Clinical Associate Professor in the Departments of Surgery and Obstetrics & Gynecology at the University of Calgary. He is Fellowship Co-Director for Reconstructive and Functional Urology.

Dr. Carlson is co-founder and president of the Functional and Reconstructive Urology Society of Canada, and he is co-founder and director of vesia [Alberta Bladder Centre] in Calgary. He is actively involved in clinical and educational research, peer review, and teaching at all levels. Research interests include health service models, PROMs, incontinence, female pelvic reconstructive surgery, and overactive bladder. Dr. Carlson has published numerous peer-reviewed articles and has been actively involved in national guidelines development, advocacy, and the growth of functional and reconstructive urology in Canada.
