Associate Director, Clinical Research, Vancouver Prostate Centre
Professor, Department of Urologic Sciences, University of British Columbia
Vice-President Education, Elect, Canadian Urological Association

Ricardo Rendon

Professor, Department of Urology
Director of Research and Clinical Trials, Dalhousie University
Chair, Genito-Urinary Cancer Site Team,
Nova Scotia Health Authority Cancer Program
Vice-President Education, Canadian Urological Association
Chair, Canadian Urologic Oncology Group

Learning Objectives:

At the conclusion of this meeting, attendees will be able to:

- Apply the most current evidence for selection and sequencing of systemic therapy options for patients with metastatic kidney cancer
- Integrate the use of PSMA-PET imaging in the management of patients with biochemical recurrence after local therapy of prostate cancer
- Understand the utility of biomarker testing to guide the use of PARP inhibitors in men with metastatic castrate-resistant prostate cancer
- Describe the impact of extended versus standard pelvic lymph node dissection on survival after radical cystectomy for muscle-invasive bladder cancer

This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada and approved by the Canadian Urological Association.

You may claim a maximum of 3 hours of credit.
