Following this program the participants will be able to:

- Identify what is at the core of Men’s Health and how urologic issues, such as erectile dysfunction, low testosterone and metabolic syndrome, are related.
- Understand recent updates in the management of diabetes, cardiovascular disease and osteoporosis.
- Initiate changes in urology to advance and expand the practice of Men’s Health.

This program has been reviewed by the College of Family Physicians of Canada and is awaiting final accreditation by the College’s Ontario Chapter.

This program is an accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, reviewed and approved by the Canadian Urological Association. Completion of this program enables participants to claim a maximum of 6 hours of credit.
